Deep Thinking...

How long have you been working with WCAS for: 13 Years, 19ish years working with children

The best part of working with children is... Children have this unmatched capacity to look at the world with wonder. They're not inhibited by the "social norm" and are curious about everything. Their unsolicited advice is also pretty amusing.

If you weren't working with children, what would you be doing? I'd focus on my photography full time or I'd do something with animals, specifically dogs.

If you had a million dollars, what would you do with it? Invest it all to make more

What would your dream vacation look like? Scotland exploring the hills, castles and history. There or anywhere tropical

If you were stuck on a deserted island with no chance of rescue, what three items would you bring with you and why?

-A Firestarter: Matches run out, lighters die but a good firestarter like a flint or bow drill will last for a long time. Without a heat source or fire you can't cook or keep warm

-A large knife: This can be used for anything from hunting and building to self defense

-A Pot: To gather water, boil water, forrage and cook.

If you could spend a day with anyone in this world, who would it be? My husband

Tell me a joke: Q: What did one toilet say to the other toilet? A: You look a bit flushed.
